SUMMARY

A final year statistics student with a passion for data analysis and a strong foundation in statistical techniques. With a solid understanding of statistical methodologies and programming languages, including R, Python, SQL, and data visualization tools such as Google Data Studio also supported with leadership and experiences in organization, I'm eager to apply my theoretical knowledge and analytical skills in a real-world setting, seeking an opportunity to contribute to an organization's data-driven decision-making process, and make a meaningful impact.
